Combined Declaration of Use and Incontestability under Sections 8 & 15
To the Commissioner for Trademarks:

REGISTRATION NUMBER: 3474591

REGISTRATION DATE: 07/29/2008

MARK: BATTERY TENDER

The owner, Deltona Transformer Corporation, a corporation of Florida, having an address of
801 U.S. Hwy. 92, East
DeLand, Florida 32724
United States

is filing a Combined Declaration of Use and Incontestability under Sections 8 & 15.

For International Class 009, the mark is in use in commerce on or in connection with **all** of the goods/**all** of the services, or to indicate membership in the collective membership organization, listed in the existing registration for this specific class: Battery charger for use in marine industry, motorcycles, automotive or, in any vehicle or application using lead acid or gel batteries; **and** the mark has been continuously used in commerce for five (5) consecutive years after the date of registration, or the date of publication under Section 12(c), and is still in use in commerce on or in connection with **all** goods/**all** services, or to indicate membership in the collective membership organization, listed in the existing registration for this class. Also, no final decision adverse to the owner's claim of ownership of such mark for those goods/services, or to indicate membership in the collective membership organization, exists, or to the owner's right to register the same or to keep the same on the register; and, no proceeding involving said rights pending and not disposed of in either the U.S. Patent and Trademark Office or the courts exists.

The owner is submitting one(or more) specimen(s) for this class showing the mark as used in commerce on or in connection with any item in this class, consisting of a(n) photograph of product.

[Specimen File1](#)

The fax number is 239-261-3773.

A fee payment in the amount of \$300 will be submitted with the form, representing payment for 1 class(es), plus any additional grace period fee, if necessary.

Declaration

The mark is in use in commerce on or in connection with the goods and/or services identified above, as evidenced by the attached specimen(s) showing the mark as used in commerce. The mark has been in continuous use in commerce for five (5) consecutive years after the date of registration, or the date of publication under Section 12(c), and is still in use in commerce. There has been no final decision adverse to the owner's claim of ownership of such mark, or to the owner's right to register the same or to keep the same on the register; and there is no proceeding involving said rights pending and not disposed of either in the U.S. Patent and Trademark Office or in the courts.

The undersigned being hereby warned that willful false statements and the like are punishable by fine or imprisonment, or both, under 18 U.S.C. Section 1001, and that such willful false statements and the like may jeopardize the validity of this document, declares that he/she is properly authorized to execute this document on behalf of the Owner; and all statements made of his/her own knowledge are true and that all statements made on information and belief are believed to be true.

Good to talk to you today. See below what we found on [Amazon.com](https://www.amazon.com).

Links and then below there is a screenshot. In the description field (that is also targeted by Amazon's search engine) they've used your brand name by itself, with junior and with usb.

Sincerely

Martin Human
TecMate North America

Product description

30w-375 Amp

NOCO Genius smart battery chargers are some of the safest and most advanced on the market. One of our best, the G3500 3.5 Amp is designed to charge 6-volt and 12-volt lead-acid and lithium-ion batteries up to 120Ah. It can also effectively maintain automotive, marine, RV, power sport, lawn & garden deep-cycle batteries. It charges 2x faster than ordinary battery chargers, can repair damaged batteries and is designed for use with micro-hybrid start-stop vehicles and CANBUS electrical systems. Guided by an onboard microcomputer, the G3500 monitors battery activity for safe and efficient charging, automatically minimizes energy consumption and provides redundant levels of safety protection, including spark-proof technology, as well as reverse polarity and overcharge protection. It can remain safely connected 24/7, while its streamlined design makes it ultra-compact, portable, and incredibly lightweight. The G3500 features external mounting holes and a rubberized base that avoids surface slipping and scratches, while remaining impact, UV and water-resistant (IP65). Intuitive LED indicators provide visual state-of-charge feedback and diagnostic information, even when in maintenance mode. Designed for use on 120-volt 50-60Hz electrical systems, the G3500 includes both X-Connect battery clamps with integrated eyelet terminals, as well as a 5-year limited warranty. Other commonly used search terms include: 12 volt battery charger, 12 volt battery maintainer, 12 volt motorcycle trickle or 12 volt trickle charger, 12v 24v battery charger, 12v auto battery charger, 12v battery trickle charger, 12v car battery charger, 12v trickle charger, 24 volt battery charger, 24 volt trickle charger, 24v 12v battery charger, 24v battery and charger, 24v battery charger, 24v battery charge trickle charger, atv battery charger, auto battery charger, automobile battery charger, automotive battery charger, automotive battery chargers, battery charger, battery charger 12v, battery charger auto, battery charger automotive, battery charger car, battery charger for car, battery charger for cars, bat charger portable, battery charger scooters, battery chargers, battery chargers automotive, battery desulfator, battery maintainer, battery maintainer 12 volt, battery tender, battery tender junior, battery tender usb, battery trickle charger, battery trickle charger with float mode, car battery charger, car bat charger and starter, car battery charger maintainer, car battery charger portable, car battery charger with jump start, car battery chargers, car battery chargers 12 volt, car battery maintainer, car battery tender, car battery trickle charger, Harley Davidson trickle charger, lawn mower battery charger, main battery charger, marine battery charger, marine battery trickle charger, mini car battery charger, motorcycle battery maintainer, motorcycle battery tender, motorcycle trickle charger, noxa, noxa battery, noxa battery charger, noxa genius, noxa genius chargers, noxa genius ultra safe smart battery charge portable auto battery charger, portable battery charger, portable car battery charger, portal car battery charger, rv solar 12v battery charger, smart battery charger, solar 12v battery charger, solar battery charger, solar battery maintainer, solar battery maintainer 12 volt, sol battery charger, solar car battery charger, solar power 12v battery charger, solar trickle charger, trickle battery charger, trickle charger, trickle charger car battery, trickle charger for atv, trickle charger for boat battery, trickle charger for car battery, trickle charger for motorcycle, trickle chargers, trickle of for 12 volt batteries, waterproof trickle charger

NOCO Genius G4 6V/12V 4.4 Amp 4-Bank Battery Charger and Maintainer

by NOCO
★★★★☆ 4,911 customer reviews | 1000+ answered questions

Price: \$179.95 & FREE Shipping. Details

Get \$50 off instantly: Pay \$179.95 \$129.95 upon approval for the Amazon Rewards Visa Card. No annual fee.

Size: 4-Bank 4.4 Amp

.75 Amp \$29.95	1.1 Amp \$39.95	3.5 Amp \$59.95	4-Bank 4.4 Amp \$179.95
7.2 Amp \$98.96	15 Amp \$159.95	26 Amp \$199.95	

- The most convenient way to charge and maintain multiple vehicles for extending battery life and year-round battery maintenance of your car, boat, truck, RV, lawnmower, or any other vehicle.
- Completely recharge smaller capacity batteries on motorcycles, ATVs, snowmobiles, personal watercraft, scooters, and power wheels up to 40 amp-hours.
- Works with all types of 6-volt and 12-volt lead-acid batteries, including Wet, Gel, and AGM, or any common automotive, deep-cycle, marine, or maintenance-free battery.
- Keep your battery fully charged without worry or overcharge. Simply plug-in and let our advanced charging technology automatically monitor and maintain your battery.
- An optimized charge mode for safely charging and maintaining 12-volt lithium-ion batteries, and recommended with use on lithium batteries with an internal BMS.
- One of the most advanced and safest battery chargers, including spark-proof technology, and reverse polarity protection, plus backed by our 5-year and endless accessories.

Charge Fully Drained
Batteries. + Maintain
All Battery Sizes.

2X Faster.

NOCO
Multi-purpose

The NOCO Genius G4 is a 4-bank automatic battery charger and maintainer

4 Chargers In One

Charges 6V & 12V lead-acid batteries (including AGM and more) and 12V Lithium. Repairs desulfated batteries, charges in cold conditions, and has four banks that operate independently with their own charge mode.

Diagnostics

Intuitive visual diagnostic tool for detecting reverse polarity, low-voltage or damaged batteries.

Recovery

Applies a high-voltage pulse charge when low-voltage, sulfation or lost capacity is detected.

CANbus

Automatically enables the charging port to charge CANbus systems.

UltraSafe™

Spark-Proof + Reverse Polarity Protection

Protects against reverse polarity, overcharging, open-circuits, short-circuits, and overheating.

Maintenance Plus
Keeps the battery fully charged without overcharging, indefinitely.

Optimization
Stabilizes internal battery chemistry for increased performance and longevity.

Interactive
Alters the charging process based on organic battery feedback.

Energy-Save
Minimizes energy consumption when full power is not needed.

AW

★★★★☆ Stay away — terrible and lengthy warranty process

January 5, 2018

Size: 3.5 Amp | [Verified Purchase](#)

I had to post this because If I could rate this 0 stars I would. The unit worked great until it died. Yes there is a 5-year warranty but you have to write a check (yes a physical check) to the company to cover the cost of any upgrades made to the product line since your unit was made. Additionally, the warranty process is ridiculous so good luck getting your unit back. It has now been two months and still not had my unit sent back.....

★★★★★ Resurrection - it IS able to awake a VERY VERY dead battery

April 1, 2017

Size: 3.5 Amp | [Verified Purchase](#)

I attached my cheepo float charger to maintain my 74 Honda CB360 battery. OOPS, dummy me forgot to plug in the charger! Three months later not only is the battery dead, also 2 of the cells are BONE dry. I put in distilled water to raise the 12Amp "flooded wet cell" liquid level to midpoint between the lines at the top. I attached a Fluke voltmeter and saw 3 volts, ouch - 50 or so for a new battery. I thought of my G3500 V2 (with "repair") and thought "why not". To my surprise it started to charge - took a mighty long time - about 14 hours on low setting. Next I ran "repair" till a green light (about 4 hours). As there was some "condensed solids" at the bottom of some cells, I made a marathon effort. I alternated between repair and low charge for three days, slowly as the bubbles rose; the solids dissolved and the bottom cleared. I was stunned. Would it start the long sitting cycle, and if so would the charge last at least a week? YES to both!! Frankly, I was 99% on the way to just ordering a new battery. I probably would but for the fact that my ancient 74 bike has a "kick starter". I am delighted with what the G3500 V2 did. A click on "this was helpful" would be appreciated.

☆☆☆☆☆ All was fine, when I looked out to see smoke coming ...

February 4, 2017

Size: 3.5 Amp | [Verified Purchase](#)

If I had written his review yesterday I would have given it 5 stars. It has worked spectacularly. This said, today I was charging my truck battery. All was fine, when I looked out to see smoke coming out of my hood. The thing was fully on fire! I am so lucky I saw it in time. I could have started a serious fire. I am hoping I can get my money back, but I don't even know what the warranty is.

This thing is dangerous!

☆☆☆☆☆ not in the same league as CTEK's. it is more a cheap toy than a tool.

February 19, 2018

Size: .75 Amp | [Verified Purchase](#)

this is cheaply made. kept showing one battery had a short BUT using a CTEK it charged the battery and all was ok. the NOCO has an integrated eyelet which is very impractical. the manual is deficient in describing things, confusing. i returned and bought a CTEK which is so far superior, no wonder it is recommended by mercedes, bmw, jaguar and used in jay leno's garage. it has separate clips and eyelet cords, a carrying case, a nice manual, easier to use and understand, shows exactly what is being done by the charger. the CTEK 'fixed' batteries that the NOCO simply showed an error code, such as battery short. i would never buy nor recommend the NOCO. those that gave high reviews must never have used the CTEK. the quality, workmanship, ease of use is truly night and day to the much lesser NOCO. when i tried to contact NOCO for explanation on how to use and what was meant in the manual (which is a small hard to read single piece of paper, it took a week for a response. then the tech had no idea of the error signals or able to clarify the manual. their warranty seems to me near a sham; you have to pay return fees and the unit is prorated.

☆☆☆☆☆ One charge is all it would do.

May 11, 2017

Size: 7.2 Amp | [Verified Purchase](#)

I purchased the NOCO Genius G7200 from Auto TrenDs in late October 2016. I "repaired" an old battery that was in a work truck that had been sitting for over a year. The battery is still working to this day so the NOCO did the trick. However, when i got the charger out to charge my boat battery the first week in May it didn't work. There was a high pitch sound coming from the NOCO. It wouldn't charge the battery. I got one use out of this \$90 charger. I am attempting to return the unit to the Amazon seller Auto TrenDs, so far they have not responded.

☆☆☆☆☆ pretty on the outside, not so pretty on the inside.....

February 11, 2017

Size: 3.5 Amp | [Verified Purchase](#)

After 5 years and 2 months of use...maintaining motor cycle (small battery).
I needed to use it on a full sized battery...
I press the mode button and it does nothing, press a few more times and it goes into standby mode and never comes

Amazon.com: NOCO Genius G4 6V/12V 4.4 Amp 4-Bank Battery Charger and Maintainer: Automotive

out again.
try to hook to no battery/good battery/bad battery ...no difference. Stuck in Standby mode.
So I dont know when the mode cycling feature failed.
btw, to use warranty you need to pay for shipping, and after 2.5 years 35% of the cost of the product....

Since I was not going to returnit I opened up the unit and found one of the worst soldering jobs ever.
The outside if the unit is very pretty the inside very poorly soldered
I found a cut terminal lead loose/lightly tacked onto motherboard near the mode button.

With the quality of the soldering of this unit, I would not call it ultra-safe.....

Jon W

★★★★☆ Will NOT work on a fully discharged battery

January 28, 2017

Size: 7.2 Amp | Verified Purchase

I bought this back in Sept and today is the first occasion I've had to use it. The better half hasn't been driving her Mustang, and as a result the battery went dead. Completely dead. So I unboxed the Genius and hooked it up. Despite numerous attempts, the only light that would come on was the straight power light. I thought I had read something on here about it not working on a fully discharged battery, so I hooked up my Battery Tender and let it work for a few hours. Then there was enough juice in the battery for the Genius to work. It fully charged the battery in about 5 hours. So the description is misleading when it says it will charge a completely dead battery, because it will NOT. So I f this is your only battery charger and you have a fully discharged battery, you're out of luck. Which is not Genius, it's stupid. That's a glaring and unforgivable oversight for a \$100 battery charger. Sometimes the old way is not so bad. If you buy the this battery charger, don't toss your old one. You may need the old low-tech dog to get this high-tech kid going.

Size:.75 Amp

NOCO Genius smart battery chargers are some of the safest and most advanced on the market. One of our best, the G3500 3.5 Amp is designed to charge 6-volt and 12-volt lead-acid and lithium-ion batteries up to 120Ah. It can also effectively maintain automotive, marine, RV, power sport, lawn & garden and deep-cycle batteries. It charges 2x faster than ordinary battery chargers, can repair damaged batteries and is designed for use with micro-hybrid start-stop vehicles and CANBUS electrical systems. Guided by an onboard microcomputer, the G3500 monitors battery activity for safe and efficient charging, automatically minimizes energy consumption and provides redundant levels of safety protection, including spark-proof technology, as well as reverse polarity and overcharge protection. It can remain safely connected 24/7, while its streamlined design makes it ultra-compact, portable, and incredibly lightweight. The G3500 features external mounting holes and a rubberized base that avoids surface slipping and scratches, while remaining impact, UV and water-resistant (IP65). Intuitive LED indicators provide visual state-of-charge feedback and diagnostic information, even when in maintenance mode. Designed for use on 120-volt 50-60Hz electrical systems, the G3500 includes both X-Connect battery clamps with integrated eyelet terminals, as well as a 5-year limited warranty. Other commonly used search terms include: 12 volt battery charger, 12 volt battery maintainer, 12 volt motorcycle trickle charger, 12 volt trickle charger, 12v 24v battery charger, 12v auto battery charger, 12v battery charger, 12v battery trickle charger, 12v car battery charger, 12v trickle charger, 24 volt battery charger, 24 volt trickle charger, 24v 12v battery charger, 24v battery and charger, 24v battery charger, 24v battery chargers, 24v trickle charger, atv battery charger, auto battery charger, automobile battery charger, automotive battery charger, automotive battery chargers, battery charger, battery charger 12v, battery charger auto, battery charger automotive, battery charger car, battery charger for car, battery charger for cars, battery charger portable, battery charger scooter, battery chargers, battery chargers automotive, battery desulfator, battery maintainer, battery maintainer 12 volt, battery tender, battery tender junior, battery tender usb, battery trickle charger, battery trickle charger with float mode, car battery charger, car battery charger and starter, car battery charger maintainer, car battery charger portable, car battery charger with jump start, car battery chargers, car battery chargers 12 volt, car battery maintainer, car battery tender, car battery trickle charger, Harley Davidson trickle charger, lawn mower battery charger, manual battery charger, marine battery charger, marine battery trickle charger, mini car battery charger, motorcycle battery maintainer, motorcycle battery tender, motorcycle trickle charger, noco, noco battery, noco battery charger, noco genius, noco genius chargers, noco genius ultra safe smart battery chargers, portable auto battery charger, portable battery charger, portable car battery charger, portal car battery charger, rv solar 12v battery charger, smart battery charger, solar 12v battery charger, solar 12v car battery charger, solar battery charger, solar battery maintainer, solar battery maintainer 12 volt, solar car battery charger, solar car battery chargers, solar power 12v battery charger, solar trickle charger, trickle battery charger, trickle charger, trickle charger car battery, trickle charger for atv, trickle charger for boat battery, trickle charger for car battery, trickle charger for motorcycle, trickle chargers, trickle chargers for 12 volt batteries, waterproof trickle charger

From the manufacturer

**Charge Fully Drained
Batteries. + Maintain All
Battery Sizes.**

2X Faster.

The Genius G750 is a portable automatic battery charger and maintainer**2 Chargers In One**

Designed for charging starter and deep-cycle 12V and 6V lead-acid batteries (including AGM and more). Recovers batteries that are worn out, and will never overcharge your battery.

**Diagnostics**

Intuitive visual diagnostic tool for detecting reverse polarity, low-voltage or damaged batteries.

**Recovery**

Applies a high-voltage pulse charge when low-voltage, sulfation or lost capacity is detected.

**CANbus**

Automatically enables the charging port to charge CANbus systems.

Protects against reverse polarity, overcharging, open-circuits, short-circuits, and overheating.

- Maintenance Plus**

Keeps the battery fully charged without overcharging, indefinitely.
- Optimization**

Stabilizes internal battery chemistry for increased performance and longevity.
- Interactive**

Alters the charging process based on organic battery feedback.
- Energy-Save**

Minimizes energy consumption when full power is not needed.

Question: [Which amp model to buy for automobile battery? The 0.75 amp or larger](#)

Answer: This One is a good overall battery charger for the money, 3.5 amps and \$59.95
It will still take like 12 hours to charge a "dead" battery, (overnight) but it's not just a maintainer or trickle charger.
The .75 amp unit is mostly for much smaller batteries, the 1.1 amp is a trickle charger. Most of the old-school cha... [see more](#)

Question: [It appears the G3500's "repair" feature \(desulfator\) only applies to 12v batteries \(zoomed in on the pic\). Is that right? My 6v needs help!](#)

Answer: The 12 Volt Repair feature is for 12 volt Wet, Gel, MF, and AGM batteries only. This feature will not work on 6 Volt batteries.

The "12 Volt Repair" feature is a little different from the desulfation performed in Step 2 - Recovery. The 12 Volt Repair feature is for 12 volt Wet, Gel, MF, and AGM batteries only. This f... [see more](#)

Question: [I'm charging a small 12v battery in Normal mode. The 25 % charge level is the ONLY LED flashing , Is this normal or should it be solid?](#)

Answer: Yes ...It's normal if your battery is low and needs a charge. Just keep it on the charger and let it charge up. As the battery is getting more and more charge you will see the 25% go to 50%. Then 75 and so forth. keep it on charge until all the green lights are solid

AW

☆☆☆☆☆ Stay away -- terrible and lengthy warranty process

January 5, 2018

Size: 3.5 Amp | Verified Purchase

I had to post this because If I could rate this 0 stars I would. The unit worked great until it died. Yes there is a 5-year warranty but you have to write a check (yes a physical check) to the company to cover the cost of any upgrades made to the product line since your unit was made. Additionally, the warranty process is ridiculous so good luck getting your unit back. It has now been two months and still not had my unit sent back.....

★★★★☆ Resurrection - it IS able to awake a VERY VERY dead battery

April 1, 2017

Size: 3.5 Amp | Verified Purchase

I attached my cheepo float charger to maintain my 74 Honda CB360 battery. OOPS, dummy me forgot to plug in the charger! Three months later not only is the battery dead, also 2 of the cells are BONE dry. I put in distilled water to raise the 12Amp "flooded wet cell" liquid level to midpoint between the lines at the top. I attached a Fluke voltmeter and saw 3 volts, ouch - 50 or so for a new battery. I thought of my G3500 V2 (with "repair") and thought "why not". To my surprise it started to charge - took a mighty long time - about 14 hours on low setting. Next I ran "repair" till a green light (about 4 hours). As there was some "condensed solids" at the bottom of some cells, I made a marathon effort. I alternated between repair and low charge for three days, slowly as the bubbles rose; the solids dissolved and the bottom cleared. I was stunned. Would it start the long sitting cycle, and if so would the charge last at least a week? YES to both!! Frankly, I was 99% on the way to just ordering a new battery. I probably would but for the fact that my ancient 74 bike has a "kick starter". I am delighted with what the G3500 V2 did. A click on "this was helpful" would be appreciated.

☆☆☆☆☆ All was fine, when I looked out to see smoke coming ...

February 4, 2017

Size: 3.5 Amp | Verified Purchase

If I had written his review yesterday I would have given it 5 stars. It has worked spectacularly. This said, today I was charging my truck battery. All was fine, when I looked out to see smoke coming out of my hood. The thing was fully on fire! I am so lucky I saw it in time. I could have started a serious fire. I am hoping I can get my money back, but I don't even know what the warranty is.

This thing is dangerous!

★★★★★ **not in the same league as CTEK's. it is more a cheap toy than a tool.**

February 19, 2018

Size: .75 Amp | **Verified Purchase**

this is cheaply made. kept showing one battery had a short BUT using a CTEK it charged the battery and all was ok. the NOCO has an intergrated eyelet which is very impractical. the manual is defecient in describing things, confusing. i returned and bought a CTEK which is so far superior, no wonder it is recommended by mercedes, bmw, jaguar and used in jay leno's garage. it has seperate clips and eyelt cords, a carrying case, a nice manual, easier to use and understand, shows exactky what is being done by the charger. the CTEK 'fixed' batteries that the NOCO simply showed an error code, such as battery short. i wiould never buy nor recommend the NOCO. those that gave high reviews must never have used the CTEK. the quality, workmnship, ease of use is truly night and day to the much lesser NOCO. when i tried to contact NOCO for explanation on how to use and whatwas meant in the manual (which is a small hard to read single piece of paper, it took a week for a response. then the tech had no idea of the error signals or able to clarify the manual. their warranty seems to me near a sham; you have to pay return fees and the unit is prorated.

★★★★★ **One charge is all it would do.**

May 11, 2017

Size: 7.2 Amp | **Verified Purchase**

I purchased the NOCO Genius G7200 from Auto TrenDs in late October 2016. I "repaired" an old battery that was in a work truck that had been sitting for over a year. The battery is still working to this day so the NOCO did the trick. However, when i got the charger out to charge my boat battery the first week in May it didnt work. There was a high pitch sound coming from the NOCO. It wouldn't charge the battery. I got one use out of this \$90 charger. I am attempting to return the unit to the Amazon seller Auto TrenDs, so far they have not responded.

★★★★★ **pretty on the outside, not so pretty on the inside....**

February 11, 2017

Size: 3.5 Amp | **Verified Purchase**

After 5 years and 2 months of use...maintainng motor cycle (small battery). I needed to use it on a full sized battery...

Amazon.com: NOCO Genius G750 6V/12V .75 Amp Battery Charger and Maintainer: Automotive

I press the mode button and it does nothing, press a few more time and it goes into standby mode and never comes out again.

try to hook to no battery/good battery/bad battery ...no difference. Stuck in Standby mode.

So I dont know when the mode cycling feature failed.

btw, to use warranty you need to pay for shipping, and after 2.5 years 35% of the cost of the product.....

Since I was not going to returnit I opened up the unit and found one of the worst soldering jobs ever.

The outside if the unit is very pretty the inside very poorly soldered

I found a cut terminal lead loose/lightly tacked onto motherboard near the mode button.

With the quality of the soldering of this unit, I would not call it ultra-safe.....

★★★★☆ **Will NOT work on a fully discharged battery**

January 28, 2017

Size: 7.2 Amp | **Verified Purchase**

I bought this back in Sept and today is the first occasion I've had to use it. The better half hasn't been driving her Mustang, and as a result the battery went dead. Completely dead. So I unboxed the Genius and hooked it up. Despite numerous attempts, the only light that would come on was the straight power light. I thought I had read something on here about it not working on a fully discharged battery, so I hooked up my Battery Tender and let it work for a few hours. Then there was enough juice in the battery for the Genius to work. It fully charged the battery in about 5 hours. So the description is misleading when it says it will charge a completely dead battery, because it will NOT. So I f this is your only battery charger and you have a fully discharged battery, you're out of luck. Which is not Genius, it's stupid. That's a glaring and unforgivable oversight for a \$100 battery charger. Sometimes the old way is not so bad. If you buy the this battery charger, don't toss your old one. You may need the old low-tech dog to get this high-tech kid going.
